

KRITI SINGH

Mob: +91-7566456056

Email: kriti2095@gmail.com

Java Developer with 7+ years of experience in building scalable backend systems using Java, Spring Boot, and REST APIs, primarily in the banking domain. Hands-on experience with frontend development using ReactJS and cloud deployment practices. Certified GCP Associate Cloud Engineer, with strong knowledge of cloud infrastructure and DevOps tools.

Skills

Programming Languages	JAVA
Frameworks/Libraries	Springboot, ReactJs
Web Technologies	HTML, CSS, JavaScript
Database	SQL
DevOps & Tools	Git, Docker, Jenkins, Ansible, Google Cloud Platform [GCP], Jira, Service Now

Professional Experience

➤ Sr. Associate Technology - Synechron Pvt Ltd

Aug 2021 - Present

HSBC Asset Management France

- Contributed to the modernization of a legacy Struts application, migrating to Spring Boot REST APIs with ReactJS frontend; deployed on Google Cloud Platform (GCP) VMs using Docker containers.
- Improved Jenkins CI/CD pipelines for the API project, including the creation of a new UAT deployment pipeline.
- Developed a new feature for document upload to GCP Cloud Storage via APIs.
- Led SonarQube analysis tasks, addressing code smells and bugs to improve code quality scores.
- Handled new requirement implementation and feature enhancements for various internal applications.
- Performed testing and troubleshooting of Armor Policies on GCP, including analysis of policy logs and implementing fixes.
- Created new UI screens in the legacy Struts/JSP application, including database integration for client data insertion.
- Actively contributed to remediation of Log4j vulnerability across multiple applications.
- Participated in the migration from Nexus2 to Nexus3, including required changes to Jenkins pipelines and Maven POM files.
- Developed a new InfoCentre application using a microservices architecture (Spring Boot) backend and a ReactJS frontend. Implemented dynamic data tables with ag-Grid, and delivered knowledge transfer (KT) sessions to team members.
- Worked on SOAP-based applications, adding authentication mechanisms on both client and server sides using custom SOAP handlers.

eRisk Limits Reporting Project - [Barclays]

- Developed a reporting tool for US and UK clients to track exposure utilization on the current COB date.
- Migrated Excel-based reports to Jasper Reports and validated dashboard screens using Angular.js.
- Enhanced stored procedures in MS SQL Server and updated shell scripts to improve email notification workflows.
- Created and scheduled Autosys jobs using JIL scripts, integrating shell scripts and Java for daily data checks.
- Developed dashboard popups using Ext.js and linked them with backend procedures for real-time data display.

Financial Transactions Project - [Western Union]

- Contributed as a Full Stack Developer to build a platform supporting various transactions such as send money, payout, merchant payments (e.g., Amazon).
- Technologies used: Java 8, Web Services, and AngularJS (1.6) for two platform versions (v1.0 & v2.0).
- Implemented maker-checker workflows for transaction approval and dynamic popups for transaction edit operations.
- Fixed bugs and delivered localized enhancements including Italy-specific receipt formats.
- Developed and maintained JUnit tests to ensure quality and coverage of backend logic.

Certification

- Google Cloud Certified – Associate Cloud Engineer, 2025
- ReactJs (Internal Certification)
- Spring Boot and Microservices (Internal Certification)
- GCP (Internal Certification)

Achievements

- Awarded 2x 'Employee of the Month' and 'Star Award' at Synechron Pvt Ltd.
- Received 3x 'On-the-Spot' Awards at TCS.
- Served as Vice President Public Relations of Toastmaster's Club.

Education

- Bachelor of Engineering in Information Technology with CGPA 7.67 from Shri Vaishnav Institute of Science and Technology, M.P., India. [2017].
- Higher Secondary (CBSE-12th) with 84.6% from St. Raphael School, M.P., India. [2013].
- Senior Secondary (CBSE-10th) with CGPA-9.0 from St. Raphael School, M.P., India. [2011]
